

Flame Retardant

[salt-free premium formula]
[restor® damage restoration system]

Restor® Flame Retardant is an advanced, non-brominated formula that is safe and effective on all natural and synthetic fabrics. This ready-to-use solution contains no salts, and therefore will not stiffen or adversely effect fabric texture. This product provides a superior protective treatment that will actually extinguish the flame.

DILUTIONS

Do not dilute. This product is ready-to-use.

DIRECTIONS

- 1) Shake gently before use.
- 2) Always test for color stability before use.
- 3) Measure fabric to be treated.
- 4) Apply with a hand-held sprayer at a minimum rate of 1/2 ounce per square foot (165 ml per m²) or until fabric is damp to the touch. Rayon and carpet fabric should be treated with two consecutive applications.
- 5) Product may be applied immediately after cleaning, while fabric is still damp.
- 6) KleenGuard®, fabric protector, may be applied immediately after Flame Retardant application.

TECHNICAL DATA

pH at use dilution	7.00
Compound type	nonionic
Water solubility	complete
Freeze/thaw stable	slight
VOC compliant	yes
Shelf-life, years	7+
Coverage, rayon	125 ft ² /gl (3.2 m ² /liter)
Coverage, other	250 ft ² /gl (6.4 m ² /liter)

AVAILABLE SIZES

US gallon . 55-gallon drum

ADVANTAGES AND USAGES

- ▶ Safe and effective on all natural and synthetic fabrics.
- ▶ Independently tested by the United States Testing Laboratories, and certified by the California State Fire Marshal.
- ▶ Will not stiffen or adversely effect fabric texture.
- ▶ Meets the requirements set forth by the FAA (Federal Aviation Administration), New York City Bureau of Standards and Appeals, NFPA (National Fire Prevention Agency) Class "A", 701 (small and large scale) and UBC (Uniform Building Code) Class "1" rated.
- ▶ Does not contain brominated compounds. User safe.

CUSTOMER INFORMATION

Hypoallergenic when dry.
Provides superior flame retardancy.
Nontoxic. Environmentally friendly.
